

YOUR EXPERT TRUSTEE SERVICE FOR OEMs AND PLMs

HELPING YOU TO BUILD TRUST IN YOUR
TECHNICAL DOCUMENTATION

The MDR/IVDR presents significant changes for Original Equipment Manufacturers (OEMs) and Private Label Manufacturers (PLMs), in particular the requirement for complete disclosure of the technical documentation.

Make sure you can continue to offer your product portfolio to customers at the end of the MDR/IVDR transition period. Take advantage of our OEM/PLM trustee service – what we offer you:

- > Independent evaluation of your OEM technical documentation by our industry-leading experts
- > Controlled exchange of the technical documentation between OEM, PLM and notified body without disclosing critical intellectual property to the PLM
- > An independent expert team of trusted engineers, auditors and regulatory affairs specialists and a secure IT infrastructure

Our service can be tailored to your requirements.
